SUMMARY

Motivated Software Developer with practical experience in building full-stack web applications using React, Node.js, and MongoDB. Skilled in integrating AI tools and delivering intuitive UI/UX solutions. Proven ability to lead tech projects and collaborate in dynamic teams to create impactful, user-centered applications.

EDUCATION

2024 - 2026 MASTER OF SCIENCE IN COMPUTER APPLICATIONS (IN PROGRESS)

Symbiosis Institute of Computer Studies and Research,Pune,Maharashtra

2021 - 2024 BACHELOR OF COMPUTER APPLICATIONS

Marwadi University,Rajkot,Gujarat

Secured 8.45 CGPA

PROJECTS

AR BASED RESTAURANT MANAGEMENT SYSTEM

Developed an AR-based dining app using React, Node.js, and MongoDB. Users scan QR codes to view animated 3D models of dishes with plating, portion sizes, and dietary info. Built a real-time dashboard for restaurants to manage live orders, track progress, and enhance customer engagement.

PDF BULK SENDER

An app designed to help businesses efficiently manage and send multiple PDFs. Built using React Native, this app allows users to select a category, and it automatically sends all associated PDFs via WhatsApp with just one click. The app streamlines communication, saves time, and provides a seamless, cross-platform experience for both iOS and Android users.

VIRTUAL STOCK MARKET

Developed a virtual stock market simulation using Google Sheets and Google Forms, integrated with Apps Script (JavaScript), allowing users to view stock prices, buy/sell stocks, and track their portfolio and bank balance.

GIFT SHOP WEBSITE

Developed a gift shop website using HTML, CSS, and Java, featuring a clean, intuitive design with responsive layouts and user-friendly navigation. Focused on delivering an engaging user experience and showcasing products effectively.

ACHIEVEMENTS & CERTIFICATIONS

SOFTWARE ENGINEERING JOB SIMULATION

Skyscanner (Forage)

Certificate of Completion

- Participated in a real-world software engineering simulation, gaining experience in full-stack development and collaborative coding practices.

SOLUTIONS ARCHITECTURE JOB SIMULATION

AWS (Forage)

Certificate of Completion

- Completed an AWS Solutions Architecture simulation, developing skills in designing scalable, secure, and high-performance cloud systems.

SKILLS

- Languages & Frameworks: HTML, CSS, Java, JavaScript, React.js, Node.js
- Databases & Tools: MongoDB, Google Apps Script, Git
- AI & Tools: Basic AI concepts, Prompt Engineering, ChatGPT, Midjourney, Canva AI.
- Design & UI/UX: Canva, CorelDRAW
- Other Skills: Microsoft Office,Leadership

FREELANCE WORK

Worked as a freelance graphic designer, creating social media posts, logos, and branding materials tailored to client requirements. Focused on delivering high-quality designs within deadlines while ensuring consistency and creativity in every project.
